Cary Olson, Chair
Bone Lake Management District
Via Email

Subject: 2023 Bone Lake APM Plan Amendment Review and Approval

Dear Cary Olson,

Thank you for your efforts to understand, protect, and improve Bone Lake! This letter is to notify you that the 2023 Aquatic Plant Management Plan (Plan) Amendment meets the criteria under Administrative Code NR109 and thus, the DNR has approved the Plan.

Please note: Permits will be required for harvesting activities included within the Plan Amendment. This approval letter does not substitute or negate the need for permit approval prior to beginning harvesting activities. Also, DNR staff may need to inspect CLP Bed 1 and the wild rice before harvesting could begin in that area. Harvesting in designated Sensitive Areas should abide by recommendations in the Sensitive Area report.

Thanks to you and the lake community for continuing your efforts to protect and improve Bone Lake!

Sincerely,

Alex Smith
Lake Biologist
